Benefits in detail

Life Option

1. We will pay the Death Benefit (DB) to your nominee/legal heir, on the first occurrence of either
 - Death of the Life Assured, or
 - Diagnosis of Terminal Illness

The policy will terminate on payment of this benefit. Death Benefit is the Sum Assured chosen by you.

2. On diagnosis of Permanent Disability (PD) due to an accident, the future premiums under your policy for all benefits are waived. We understand that paying future premiums to continue your life cover may be a burden in case of a disability. That is why this feature ensures that you do not need to pay your future premiums to continue your protection.

Life Plus Option

In addition to the benefits under the Life Option, you are also covered for Accidental Death (AD) Benefit. In case of death due to an accident within Accidental Death Benefit term, we will pay your nominee/legal heir AD Benefit as lump sum. This benefit ensures that you enhance your coverage significantly at very affordable rates. The policy will terminate on payment of these benefits.

In case no AD Benefit is triggered within the AD Benefit term, then AD Benefit will terminate and premiums corresponding to it will not be payable. However You would be required to pay premiums for all other Benefits to keep the policy in force.

Life & Health Option

In this option, along with the benefits under the Life Option, you are also covered for the Accelerated Critical Illness Benefit (ACI Benefit). The ACI Benefit offers you coverage against 34 critical illnesses. When a major illness strikes, it can place a huge burden on your family, not only because of the cost of medical care but also because you may not be able to work. To protect you against this, we will pay you the ACI Benefit, as a lump sum to meet your financial needs. The benefit is payable irrespective of the actual expenses incurred by the policyholder.

This benefit is payable, on first occurrence of any of the covered 34 illnesses. The ACI Benefit, is accelerated and not an additional benefit which means, the policy will continue with the Death Benefit reduced by the extent of the ACI Benefit paid. Premium payment on account of ACI Benefit will cease after payout of ACI Benefit and the future premiums payable under the policy for death benefit will reduce proportionately. If ACI Benefit paid is equal to the Death Benefit, the policy will terminate on payment of the ACI Benefit. In case of incidences covered under accidental Permanent Disability as well as Critical Illness, benefits shall be paid out under both the options.

In case no ACI Benefit is triggered within the ACI Benefit term, then ACI Benefit will terminate and premiums corresponding to it will not be payable. However You would be required to pay premiums for all other Benefits to keep the policy in force.

All in One Option

In this option, along with the benefits under Life Option, you are covered for both Accidental Death Benefit and Accelerated Critical Illness Benefit.
